

## Zoner Photo Studio 14 FREE now available

**(Brno, Czech Republic, February 23th, 2012) — One of the greatest free photo managers is now even better. Three months after releasing its flagship -Zoner Photo Studio 14 PRO, there is now a free edition of this all-in-one solution for all camera users. It is based on groundbreaking technologies used in the paid version and moreover it is completely free.**

Even the most inexperienced photography fans will be excited with how quickly and easily you are able to manage, edit and share your photos with mindblowing results. Zoner Photo Studio FREE is a popular toolkit taking care of all your work with photos. It's range of functions are vast: from complex editing tools to professional management of your files.

Ales Hasala, development team director, is glad to comment on the features of the new version, "Users will definitely appreciate the new editing features. The already wide range of features like shadow brightening, clone stamping, panorama photography and advanced red eye reduction have been enriched with new functions and tools like Deform tool which helps with popular tasks like slimming a person's figure or advanced facial adjustments to name a few. But what I am most proud of is the integration with our photosharing service, Zonerama.com"

Zonerama.com is a new, attractive web photo sharing service that gets users' pictures looking great on the Web. Zonerama's creators explained, "What Zonerama means for users is easy online photo presentation. Even though it's on the web, there's no need to visit a website. You can work directly from inside Zoner Photo Studio."

Zoner Photo Studio FREE is for personal, non-commercial use on single computers. Download it at <http://www.zoner.com/ww-en/download-photo-studio-free> or <http://free.zoner.com/download.asp>. It is available in English, German and Russian.
